## GraniteCrete™ Installation Locations

### Natural Color

- Golden Gate Bridge, Southeast Plaza and Bay Trail, San Francisco, CA – In honor of the 75th anniversary of the Golden Gate Bridge, GraniteCrete™ was installed in the Plaza as well as on the Bay Trail pathways providing pedestrian and bicycle access to dramatic viewing points for visitors. *Installed 2012.*
- Scenic Avenue Beach-front Pathway, Carmel-by-the-Sea, CA – Project consisted of high use pedestrian pathway above the beach along Scenic Avenue. *Installed 2005.*
- Blackberry Farm, Scenic Circle pathway, City of Cupertino, CA – Pedestrian pathway from Stevens Creek Bridge to Scenic Circle gate entrance. *Installed 2010.*
- Asilomar State Beach, Pacific Grove, CA – Beach pathway access on Sunset Drive, Asilomar State Beach. GraniteCrete™ used as backfill for beach access steps and pathways to beach. *Installed 2007.*
- Darioush Winery, Napa, CA – The installation is located on a pathway into the tasting room. This installation is unique due to the installation of outdoor lighting installed into the GraniteCrete™. *Installed 2017.*
- Rodney Strong Winery, Healdsburg, CA – The installation is in a patio area of the high end winery. *Installed 2017.*
- Linden Park, Redwood City, CA – GraniteCrete™ was primarily used due to the architect's desire for a permeable surface in this unique children's park. *Installed 2017.*
- Pilgrim's Place and Memory Home Care, Claremont, CA – GraniteCrete™ is installed at the entrance to this 100 year old retirement community and as a path at a memory care residence. *Installed 2017.*
- University of California Joseph M. Long Marine Laboratory, Santa Cruz, CA – GraniteCrete's largest installation to date. GraniteCrete™ is used as a walking path around the entire campus. *Installed 2017.*
- Lands End, National Park Service San Francisco, for the National Park Service. *Installed 2012.*
- Heron's Head Trail/Park, San Francisco, for The Port of San Francisco Agency. *Installed 2012.*

### Sand Color

- Copia Napa, Culinary Institute of America, Napa, CA – Installation located in the amphitheater area. This is one of two Copias located in the United States. *Installed 2017.*

### Adobe Color

- San Francisco Presidio Sidewalk at Vista Point – *Installed 2014.*
- Fort Baker, San Francisco – Yacht Harbor Walks and Seating Area. *Installed 2015.*

### Custom Color/Existing Native Cherts

- Golden Gate National Recreation Area, Marin Headlands, CA – National Park Service project consisting of several high use pedestrian viewing areas overlooking San Francisco Bay, Conzelman Road & East Street. *Installed 2010.*
